

PUBLISHED BY AUTHORITY

SIMLA, SATURDAY, APRIL 6, 1957

Separate paging is given to this Part in order that it may be filed as a separate compilation

## PART III—SECTION 2

### Notifications and Notices Issued by the Patent Office relating to Patents and Designs

#### THE PATENT OFFICE Patents and Designs

Calcutta, the 6th April 1957

#### CORRIGENDUM

(1)

In the Gazette of India, Part III, Section 2, dated the 9th March 1957 in page 52, Column 2, under the heading "Applications Accepted", against No. 54988—

for "Accepted on 20th February 1957"

read "Accepted on 22nd February 1957".

(2)

In the Gazette of India, Part III, Section 2, dated 19th January 1957 in page 13, column 1 under the heading "Registration of Designs". Against Class 5 No. 87935:—

for "Mohammad Yahya, Mohammad Ilyas, Bhatti Street, Moradabad, U.P. "Cartoon", September 13, 1956".

read "Mohammad Yahya, Mohammad Ilyas, Sons of Mohammad Zakaria, and Mohammad Rashid, Son of Mohd. Yahya, Indian Citizens, trading as H. M. Zakaria M. Yahya, Bhatti Street, Moradabad, U.P. "Cartoon", September 13, 1956".

#### Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

21st March 1957

59969. Council of Scientific and Industrial Research. An improved container for bulk packaging.

59970. Merck & Co., Inc. Substituted thiaxanthenes.

59971. SPAREG Elektroindustrie-Gesellschaft M.B.H. Compound synchronous alternator with rotary exciter system.

59972. E. H. L. Hedstrom and R. V. Tegholm. Apparatus for detecting and exploring metal ores and other geological formations, and subterranean metal bodies and the like. (Divisional date 29th December 1955).

59973. Aluminium-Industrie-Aktien-Gesellschaft. A method of replacing the pot of an electrolytic cell for the production of aluminium.

59974. The Orient General Industries Ltd. Improvements in or relating to electric fans.

59975. Refined Products Corporation. Process for producing aliphatic amino polycarboxylic acids.

59976. Dortmund-Horder Huttenunion Aktiengesellschaft. Improvements relating to sealing means for vacuum vessels.

59977. W. Jost. Improvements relating to trace element fertilizers.

22nd March 1957

59978. Council of Scientific and Industrial Research. Electro-winning of antimony.

59979. H. Behera. An improved process of manufacturing non-fragile writing slates.

59980. Dunlop Rubber Company Limited. Improvements in or relating to weight measuring apparatus. (7th April 1956).

59981. The Singer Manufacturing Company. Rotary thread take-up for sewing machines.

59982. Mechanical Products, Inc. Improvements in and relating to electric circuit breakers. (Divisional date 10th May 1956).

59983. Mechanical Products, Inc. Improvements in and relating to electric circuit breakers. (Divisional date 24th July 1956).

59984. C. Fritz. Improvements in and relating to a process and an arrangement for the bright annealing of metals.

59985. Standard Telephones and Cables Limited. Improvements in or relating to magnetic gates and to circuits using such gates. (23rd March 1956).

59986. The Permutit Company Limited. Improvements relating to ion-exchange processes and apparatus. (29th March 1956).

59987. Charles Bruning Company, Inc. Developer process and apparatus for diazo type reproductions.

59988. Mrs. Kamla Gupta. Improvements in or relating to water pumping device.

23rd March 1957

59989. INVENTA A.G. fur Forschung und Patentverwertung. Process for the manufacture of polyhydric alcohols.

59990. Thomas C. Keay Limited. Improvements in or relating to cop changing mechanisms for weaving looms. (23rd March 1956).

59991. The Indian Oxygen & Acetylene Company Private Limited. Heat insulation of vessels. (23rd March 1956).

59992. The Indian Oxygen & Acetylene Company Private Limited. Apparatus for the storage of liquefied gases. (23rd March 1956).

59993. Socony Mobil Oil Company, Inc. Methods and apparatus for acoustic well logging.

25th March 1957

59994. P. V. Indiresan. Push-pull operation of slip-ring motors

59995. INVENTA A.G. Fur Forschung Und Patentverwertung. Improvements relating to the production of polyhydric alcohols.

59996. C. G. Beard, and R. P. Urs. Improvements in or relating to the manufacture of scouring compositions.

59997. C. G. Beard and R. P. Urs. Improvements in or relating to the manufacture of clarifying agents.
59998. C. G. Beard and R. P. Urs. Improvements in or relating to the manufacture of de-coloring agents.
59999. C. G. Beard and R. P. Urs. Improvements in or relating to the manufacture of absorptive agents.
60000. Imperial Chemical Industries Limited. Ethylene polymerisation. (4th April 1956).
60001. United Kingdom Atomic Energy Authority. Improvements in or relating to recovery of thorium. (29th March 1956).
60002. Generale Thermique—Procédés BROLA, Combustion system.
60003. Chemische Fabrik Promonta GMBH. A process of preparing phenothiazine compounds. (Addition to No. 54262).
60004. Mrs. Claire Farrell Michailoff, C/o. Kosdrug Private Ltd. A thermo-bag or the like.
60005. Unilever Limited. Improvements in or relating to fatty materials. (6th April 1956).
60006. Aktiebolaget Akers Styckebruk. Improvements in or relating to the centrifugal casting of tubular metallic bodies in hot, permanent moulds and method of manufacturing such moulds.
60007. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Brüning. Halogenated bicyclo-(2.2.1)-heptenes and a process of preparing them. (12th July 1956).
60008. W. A. Trott. Luminaires.
60009. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Films from linear high polymers of propylene and process for their production.
60010. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Fibres from linear high polymers of propylene and process for their preparation.
60011. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Articles of manufacture from linear high polymers of propylene and process for their preparation.
- 26th March 1957
60012. V. R. Sonti, C/o Ascu Wood Products. Improvements in or relating to a material which can be used by burning to produce heat or as a fire kindler in place where charcoal is used to start anthracite fire.
60013. Societe Des Usines Chimiques Rhone-Poulenc. Improvements in or relating to the production of phenothiazine and other heterocyclic derivatives. (26th March 1956).
60014. The Dow Chemical Company. New practice of animal husbandry and systemic agents useful therein.
60015. Carrier Corporation. Absorption refrigeration systems of the internal coil type.
60016. Olin Mathieson Chemical Corporation. Synthesis of steroids.
60017. M. Hirsch. Improvements in the retreading of tyres. (12th April 1956).
60018. Bristol Aero-Engines Limited. Improvements in or relating to combustion chambers. (3rd April 1956).
60019. Holman Brothers Limited. Improvements in or relating to hoses. (28th March 1956).
60020. J. R. Geigy A.-G. Process for the production of ammonium compounds.
60021. J. R. Geigy A.-G. Process for the production of tertiary amines of the tetrahydrofurane series.
60022. TESLA Narodnipodnik. Device for automatic stopping of railway trains.
60023. Kralovopolska strojirna. Method of erecting storage structures.
60024. V. R. Sonti, C/o Ascu Wood Products. Improvements in or relating to timber treatment plants.
60025. V. R. Sonti, C/o Ascu Wood Products. Improvements in or relating to the protection of marine timber.
60026. F. L. Smidth & Co. A/S. Improvements relating to apparatus for filling valve bags. (16th April 1956).
60027. H. Dohmen. Briquetting of ores.
60028. Laboratoria Pharmaceutica Dr. C. Janssen N. V. Improvements in or relating to a process of preparing new pharmacologically active piperazine derivatives.
60029. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Brüning. Improvements in diazotization processes. (15th October 1956). (Addition to No. 57674).
60030. Ciba Limited. Manufacture of keto-steroids.
60031. E. I. Du Pont De Nemours and Company. Finishing fabrics.
60032. Tanabe Seiyaku Company Limited. Process for preparing soluble adrenochrome derivatives.
- 27th March 1957
60033. N. P. Asher. A computer for quick conversion of the old Indian Coinage in terms of the new Decimal Coinage.
60034. Ciba Limited. Manufacture of new basic substituted heterocyclic compounds.
60035. Ciba Limited. Manufacture of new basically substituted heterocycles.
60036. Mavor & Coulson Limited. Improved pick holder for coalcutter chains. (28th March 1956).
60037. N. Lal. Improvements in or relating to limiting, controlling and/or extinguishing fires in coal mines.
60038. Societe Anonyme Des Usines Chaussen. A compressor, more particularly for refrigerating fluid.
60039. Massey-Harris-Ferguson (Manufacturing) Limited. Improvements in or relating to bar point ploughs. (27th March 1956).
- Alteration of Dates
55187. The Claim to priority date 1st September 1954 has been abandoned and the application dated as of 16th August 1955, the date of filing in India.
55935. The Claim to priority date 1st December 1954 has been abandoned and the application dated as of 28th November 1955, the date of filing in India.
57522. Ante-dated to 11th October 1955 under Section 5 of the Act.
- Applications Accepted
- Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.
- A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India, Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.
- If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charge which may be ascertained on application to the office.
- The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.
54826. St. Anne's Board Mill Company Limited. Method of and apparatus for making paper or paper board or similar fibrous product from watery pulp. (23rd July 1954). Accepted on 25th March 1957.
- Wherein watery pulp is led into a tapering gas provided by a band and an upper permeable member and impelling an air current over the water passing through the permeable member to entrain it.*
55187. Imperial Chemical Industries Limited. New quinoline derivatives and their process of manufacture. Accepted on 22nd March 1957.
- By reacting a quinaldine derivative with formaldehyde a derivative thereof.*

55457. "LICENCIA" Talalmanyokat Ertekesito Vallalat. Apparatus for classifying fibres showing double refraction, especially cotton fibres. Accepted on 23rd March 1957.

*A source of light, a ray dividing device, an object holder, a photoelectric measuring device, an analyzer in the path of the light divider and an amplifier.*

55475. F. J. Förg. Means for carrying out bacteriological tests. Accepted on 25th March 1957.

*Wherein the means is a nutrient carries and also constitutes a tool made of a sterilisable absorbent or swellable material.*

55500. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to asymmetrically conductive electric wave transmission systems. Accepted on 26th March 1957.

*In or waveguide is arranged a strip of high frequency magnetic material for example ferrite, coated with dielectric material whose dielectric constant is at least equal to the square root of the dielectric constant of the magnetic material and the thickness of which is at least equal to  $\frac{1}{4}$  of the light velocity divided by the square root of the dielectric constant of dielectric material multiplied by the wave frequency.*

55587. Deutsche Gold-und Silber-Scheideanstalt vormals Roessler. Process for the manufacture of thiophenyl-pyridylamines. (16th September 1955). Accepted on 27th March 1957.

*Treating secondary thiophenylpyridylamine to replace hydrogen atom of -NH-group by desired radical.*

55593. R. W. Taccone. A molding apparatus. Accepted on 25th March 1957.

*A device for stripping a flask and a mold contained therein from a pattern plate.*

55594. Ciba Limited. Manufacture of oxy-halogen-pregnanes. Accepted on 23rd March 1957.

*Subjecting 11-oxygenated-12  $\alpha$ -halogen pregnane compounds to aerobic action of enzymes produced by fungi of the genera Mucor, Helicostylum, Pleospora or Curvularia.*

55606. D. Appert and S. Cailliot. Magazine charger for the regular driving of a flat elongated continuous recording element. Accepted on 23rd March 1957.

*Magazine charger consisting of a rotatable plate, a middle part including an annular tray, a lid and an inner drum rigid in respect of rotation with said plate.*

55735. Ciba Limited. Manufacture of methylene-hydrophenanthrenes. Accepted on 27th March 1957.

*Treating 2-methyl-hydro-phenathrene containing in 2-position hydroxyl or amino group, with basic or dehydrating agent.*

55742. Union Carbide and Carbon Corporation. Electric arc welding. (16th August 1955). Accepted on 21st March 1957.

*Change in feeding rate of a metal electrode having a rounded end is effected not later than when the arc has burned the electrode back to its full diameter.*

55789. J. De Sternberg. Method of and apparatus for flow-pressing finished shaped parts and section and tube lengths of metal. Accepted on 23rd March 1957.

*Shaped metal bar, tube or like inserted in press cylinder, being continuously subjected to high feed pressure by hydraulic pressure medium precluding the generation of gas, such as graphite, is subjected to a higher feed pressure intermittently in an annular zone, such that the shaped metal is converted into flow-pressable state and is pressed forward and is pressed out through a passage.*

55800. C. T. Electrical Controls Limited. Electric circuit breaker. (27th January 1955). Accepted on 21st March 1957.

*Comprising conductors, movable contacts, movable member, holding mechanism, temperature-sensitive operating means and means sensitive to ambient temperature to modify actuation of holding mechanism by said operating means to compensate for the effect of ambient temperature on said operating means.*

55838. Polygram Casting Company Limited. Moulding compositions for making shell-like foundry moulds. Accepted on 23rd March 1957.

*Comprising a mixture of a refractory granular material and a thermosetting binding agent comprising a mixture of one or more of bituminous substances and elemental sulphur.*

55864. C. T. Electrical Controls Limited. Electric power distribution system and electric circuit breaker for use therein. (31st January 1955). Accepted on 23rd March 1957.

*The system including transformer means having two secondaries adapted for parallel operation by means of the circuit breaker, and two loads individually each connected to one of said secondaries.*

55882. M. J. Puretic. Net handling apparatus and method of using same. Accepted on 27th March 1957.

*The net sections pass between spaced annular flanges of a spool which is rotatably supported.*

55894. The Chemo-Pharma Laboratories Limited. F. X. Lobo and S. M. Nadkarni. Process for the preparation of citric acid from cane sugar molasses. Accepted on 23rd March 1957.

*Cane sugar molasses is perpetuated to reduce its iron and manganese content before it is subjected to fermentation.*

55935. Imperial Chemical Industries Limited. Improvements in or relating to the fabrication of titanium or titanium base alloys. Accepted on 25th March 1957.

*Providing material to be drawn with an adherent electro-deposited coating of silver to form a lubricant-retaining layer.*

55939. The Sun Engineering (Richmond) Limited. Improvements in and relating to liquid pumping systems. (1st December 1954). Accepted on 23rd March 1957.

*Including pump having liquid inlet regulating member or valve, pump outlet having delivery connections, and a device responsive to liquid pressure at pump inlet arranged to actuate the inlet regulating member or valve in accordance with inlet pressure to vary delivery pressure.*

56114. The Goodyear Tire & Rubber Company. Improvements in valve for tubeless truck tires. Accepted on 27th March 1957.

*Comprises a member adapted to project into a valve stem hole in the rim and having a bore therethrough.*

56155. Waagner-Biro Aktiengesellschaft. Closure member for hydraulic structures. Accepted on 25th March 1957.

*A steel skin, provided with concrete body in compound relation therewith, span entire or partly the opening to be closed.*

56221. Klockner-Humboldt-Deutz A. G. and F. J. Collin Aktiengesellschaft. Process for heating fine granular fuels. (14th October 1955). Accepted on 22nd March 1957.

*Heating fuels of low water content in plurality of centrifugal separators connected in series and traversed by hot gas in succession.*

56238. E. S. Dunn. Improvements in or relating to fluid type tight seal and rotor bearing amount for submersible motors. Accepted on 25th March 1957.

*End pieces closing space between tubular motor housing and tubular lining of housing bore, resilient and metal rings adapted to be received within peripheral recess on end pieces to make water tight seal.*

56269. Verwaltungsgesellschaft der Werkzeugmaschinenfabrik Oerlikon. Machine tool with a carriage carrying a feeler. Accepted on 27th March 1957.  
*Comprises a templet carrier, pivotally mounted on a first fixed support and having a second support, slidable transversely of direction of carriage movement.*
56270. Verwaltungsgesellschaft der Werkzeugmaschinenfabrik Oerlikon. Block-shaped tool carriers having exchangeable tool holders. Accepted on 27th March 1957.  
*Has exchangeable tool holders having two V-grooves, one of which engages with a prism on one side of a clamping point, and a basic face abutting on the side face of the tool carriers on the other side.*
56384. Le Materiel De Traction Electrique. Bogie for railway rolling stock. Accepted on 27th March 1957.  
*Chassis resiliently suspended on lateral balance beams and constituting with the axles a deformable quadrilateral, the link between the quadrilateral and the chassis being established by longitudinal ties.*
56581. Council of Scientific and Industrial Research. Preparation of a resin from tar oil fractions. Accepted on 26th March 1957.  
*Condensing with an aldehyde an alkali extract of tar acids.*
56582. Council of Scientific and Industrial Research. A process for the manufacture of light constructional material such as hard boards, laminates, blocks or the like. Accepted on 26th March 1957.  
*Subjecting to heat an pressure fibrous or granular material impregnated with a resin.*
56793. Rohm & Haas Company. Improvements in polymeric quaternary ammonium compounds and method of making same. Accepted on 21st March 1957.  
*Copolymerizing a quaternary monomer and another monomer.*
56800. Veb Spinn-und Zwirnereimaschinenbau Karl-Marx-Stadt. Device for the to and fro movement of heavy mass especially in spinning machines for synthetic fibers. Accepted on 25th March 1957.  
*Placing two cylindrical cams inside a housing at the centre of the machine in such a way that the sliding brackets together with the pushing rods are moved in opposite directions.*
56823. Huwood Mining Machinery Limited. Improvements relating to conveyors. (16th March 1955). Accepted on 27th March 1957.  
*Metal slats affixed to an endless flexible belt movable over rollers drums, driven by endless chain or cables on which the turn up ends of the slats rest.*
57140. Union Carbide and Carbon Corporation. Welding process employing shielded metal arc. (13th January 1956). Accepted on 22nd March 1957.  
*The end portion of electrode and welding zone is surrounded by a gas containing powdered welding composition.*
57522. Deutsche Gold-und Silber-Scheideanstalt vormals Roessler. Process for the production of secondary thiophenylpyridylamines. (16th September 1955). [Divisional date 11th October 1955]. Accepted on 26th March 1957.  
*Reacting phenylpyridylamine with sulphur at elevated temperature.*
57611. Ciba Limited. Process for the manufacture of new acylamino-compounds. Accepted on 22nd March 1957.  
*Condensing dicarboxylic acid having COOH groups connected by bridge of two-carbon-atoms, one being attached to hydroxy group with primary arylamine having hydroxy group adjust to amino group.*
57674. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Brüning. Continuous diazotization. (26th August 1955). Accepted on 22nd March 1957.  
*Introducing diazotizable amine and diazotizing agent, into precooled solvent or diluent.*
57804. The Singer Manufacturing Company. Zigzag sewing machine. Accepted on 27th March 1957.  
*Providing a means for adjusting the spring bias applied to the swinging gate in which the needle-bar is endwise.*
57971. Vickers-Armstrongs (Engineers) Limited. Improvements in or relating to three-roll mills for grinding materials. (22nd August 1955). Accepted on 25th March 1957.  
*Moving second roll towards or away from a plane that includes the axes of one and third rolls, the clearance between the second roll and each of the other two are simultaneously decreased or increased.*
58059. J. L. Gratzmuller. Improvements relating to sealing devices. Accepted on 22nd March 1957.  
*Wherein sealing ring has two sections of different hardness.*
58208. The Singer Manufacturing Company. Presser Mechanism for sewing machines. Accepted on 25th March 1957.  
*A bushing secured in the head of a sewing machine casing and having a bore and an element mounted for axial sliding movement in said bore.*
58326. American Chemical Paint Company. Improvements in or relating to the rinsing of conversion coated metal articles. Accepted on 21st March 1957.  
*Subjecting articles to two stages of rinsing with dilute chromic acid and or phosphoric acid solution.*
58332. W. K. Battery. Improvements in or relating to drawing pins. Accepted on 25th March 1957.  
*A drawing pin is provided at the top end of its head with a recess or projection for the reception of an additional head.*
58353. Council of Scientific and Industrial Research. Improvements in a process for the electroplating of metals on aluminium or its alloys. [Addition to No. 51524]. Accepted on 26th March 1957.  
*Providing a coating of iron by dipping it in an acidic solution of ferric chloride kept at a temperature range of 25° to 95°C.*
58393. H. Hansen. Slide fastener. Accepted on 27th March 1957.  
*One row in the form of coil while other row in the form of noncoiled serpentine-like structure having loops for engagement between convolutions of coil.*
58400. G. W. Seifert. Improvements relating to vehicle brakes. (18th July 1956). Accepted on 25th March 1957.  
*Force resulting from frictional contact of one brake member with the revolving part of the brake applied to another brake member by transmission means.*
58677. E. Lawrence. Improvements in or relating to beds. [Addition to No. 56459]. Accepted on 23rd March 1957.  
*Transverse edges of mattress supporting sheet having bent upwardly to desired height and then beaded.*
58685. Vacu-Elast Limited. Improved abrading machines. (21st October 1955). Accepted on 25th March 1957.  
*Abrasive fed to the wheel adjacent the axis of rotation collects against cylindrical rim and means for impeding the movement from axis to rim.*
58700. Simon-Carves Limited. Improvements in valve arrangements for coke ovens. (17th December 1955). Accepted on 25th March 1957.  
*Valves for admission of rich gas and lean gas to heating flues are placed in close proximity and operating means mounted so that movement of one valve can be obtained if the other valve is in the 'open' position.*
58719. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Brüning. Closure or adapter for cylindrical ampoules for surgical injection. (27th January 1956). Accepted on 23rd March 1957.  
*Comprising a conical portion suitable for the reception of a mating conical member carrying an injection needle.*

58883. Imperial Chemical Industries Limited. Ethylene polymerisation. (30th November 1955). Accepted on 27th March 1957.

*Subjecting ethylene to a pressure above 500 atmospheres and to temperature above 10°C in presence of  $\alpha$ -substituted acyl peroxide catalyst.*

#### Patents Sealed

53462. 53528. 53596. 53820. 54293. 54294. 54310. 54333. 54339. 54646. 54817. 55364. 55792. 56848. 56845. 56679. 56928. 57280.

#### Amendment Proceedings

##### (1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that Commissariat A l'Energie Atomique, Administration d'Etat, a France State administration, of 69, rue de Varenne, Paris, Seine, France seek leave to amend the description and claims in the specification in respect of Patent No. 54991. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

##### (2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The Indian Oxygen & Acetylene Company Limited, now re-named The Indian Oxygen & Acetylene Company Private Limited, of 48/1, Diamond Harbour Road, Calcutta, West Bengal, India, an Indian Company seek leave to amend the name of the applicant in the application, specification and drawing in respect of Patent application No. 55608. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta 17. The proposed amendments may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

#### Registration of Assignments, Licences etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

45226 } Shawinigan Chemicals Limited.  
51291 }  
47451. Gebr. Stork & Co's Apparaten fabriek N.V.  
52530. H. Gerlach.

#### Renewal Fees Paid

#### Restoration Proceedings

##### (1)

Notice is hereby given that an application has been made under Section 16 of the Indian Patents and Designs Act, 1911, for the restoration of the following patent:—

No. 43922—East And East Combine.

The patent ceased on the 13th October 1955 owing to the non-payment of the renewal fee within the prescribed time and cessation of the patent was notified in Part III, Section 2 of the Gazette of India, dated the 28th January 1956. Any person may give notice of opposition to the restoration by leaving an application on Form 6 of the Indian Patents and Designs Rules 1933 at the Patent Office, 214, Lower Circular Road, Calcutta 17, on or before the 18th May 1957.

##### (2)

Notice is hereby given that an order was made on the 20th March 1957 restoring the patent numbered 45779 dated as of the 1st September 1951 granted to Frederic Roli for "Coupling sleeve for electric aluminium cables provided with cores".
